Pursuant to the directives of the response filed 2/14/05, claims 9 and 10 have been amended. Claims 1-10 remain pending. Applicants' arguments filed 2/14/05 have been considered and found persuasive in part. With the exception of the "ODP" rejection, the previously imposed rejections are withdrawn.

Claims 1-4 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 10 of U.S. Patent No. 6,613,874; claims 5-8 are rejected as unpatentable over claim 13 of the same patent.

Applicants have not traversed this rejection, arguing instead that a terminal disclaimer has been filed. However, as of 3/10/05, no such terminal disclaimer has been received. Accordingly, the rejection is maintained without further argument.

Claim 9 is rejected under 35 U.S.C. §112 second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 1 of claim 9, reference is made to the MC-4 receptor. In 4 of the claim, reference is made to the "MC-r" receptor. It appears that reference to the latter

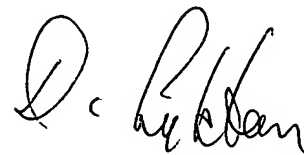

receptor is a typographical error. But if not, there is a mismatch between the two receptors.
